AIAN MAMBATOVA

Front-End Developer | Chicago, IL | 541-218-1111| ayan.mambetova@gmail.com | [LinkedIn](#) | No sponsorship required

HIGHLIGHTS OF QUALIFICATIONS

- Front-End Software Developer with 3+ years of experience in building high-performance, scalable web applications using React, JavaScript, HTML5, CSS3, and TypeScript
- Accelerated project delivery by 30% through the implementation of enhanced development workflows and efficient collaboration practices
- Increased user engagement by 20% by developing scalable and responsive web components, significantly improving platform performance
- Reduced page load times by 20% through the optimization of front-end components, resulting in a faster, more efficient user experience across multiple browsers and devices

WORK EXPERIENCE

Front-End Software Developer   **June 2022 - Present**
Samsara: [project CargoFleet](#)

- Developed scalable and responsive web components using React, HTML5, and CSS3, improving platform performance and contributing to a 20% increase in user engagement
- Integrated unit tests and migrated the JavaScript codebase to TypeScript, ensuring robust, type-safe code and improved maintainability
- Implemented data fetching functionality from REST APIs, ensuring seamless UI population across various devices and browsers, which enhanced the overall user experience by 15%
- Optimized front-end components for maximum performance, reducing load times by 14% across a wide range of web-capable devices and browsers
- Used JIRA for task management and issue tracking, contributing to a 95% issue resolution rate and improved team productivity

Front-End Software Development Intern   **July 2021 - May 2022**
Trend Micro

- Optimized and refactored front-end components using React and JavaScript to improve performance and reduce page load times by 20%
- Conducted rigorous cross-browser and cross-device testing, ensuring consistent UI/UX and resolving compatibility issues
- Implemented responsive web design using Bootstrap and CSS3, enhancing layout flexibility and improving mobile user engagement by 25%
- Collaborated with designers to enhance UI/UX elements, ensuring a seamless user experience across multiple platforms and devices

EDUCATION

Front-End Software Development BootCamp, 2022

Bachelor of Science in Finance, Moscow University

SKILLS

Programming Languages & Frameworks: JavaScript (ES5, ES6), Java, HTML/HTML5, CSS/CSS3, CSS Preprocessors (Sass, LESS), CSS Flexbox, jQuery, JSON, XML, AJAX, DOM, Babel, OOP, React, Redux, Express, NodeJS, Bootstrap, Material UI, Tailwind CSS, react-spring, React-Router

Testing & Tools: Jest, Enzyme, TestNG, GUnit

Web Development Tools: Webpack, Maven, Ant, Postman, Heroku

Version Control: Git, GitHub, Bitbucket

IDEs: Visual Studio Code, Eclipse, IntelliJ

Operating Systems & Networking: Windows, UNIX, LINUX, Hyper-V, VMware vSphere, TCP/IP, DNS, SSH, DHCP, FTP, FTPS

Project Management & Development Methodologies: Agile, Waterfall, Jira, ServiceNow, HP Service Management
